Full Stack Developer

Serhii Kushnir

Poland | +48 535 199 746 (Telegram @SerhiyKushnir) | s1983kushnir@gmail.com | LinkedIn Portfolio GitHub

Full Stack Developer skilled in **React, React Native, Next.js, Vite, TypeScript, Node.js.** Develops scalable, high-performance web applications with modern UI/UX and responsive design, contributing across the full stack while collaborating with designers and other engineers to deliver maintainable, user-focused solutions.

EXPERIENCE

Full Stack Developer TheBuidl

February 2025 - Present

React, Next.js, Vite, Strapi, TS, Tailwind CSS, Zustand, Lightweight-Charts

- Built **projects from scratch**, designing architecture and delivering production-ready applications.
- **Contributed features** and improvements to team projects.
- **Set up Webpack** to import icons as reusable components and implemented an SVG sprite system to improve performance and reduce load times.

Front End Developer Junfolio

September 2024 - February 2025

React, Next.js, TS, Tailwind CSS, Redux, React Hook Form, Yup

- Developed a platform connecting startups with collaborators.
- **Refactored and optimized** code, improving performance.
- Built reusable, user-friendly forms with **React Hook Form** and **Yup**.
- **Mentored** developers and conducted technical interviews.

Full Stack Developer Reel-Reveal

January 2024 - September 2024

Next.js, React, TS, Tailwind CSS, OpenAI API, MongoDB, TMDB API, NextAuth

- Built a movie discovery app integrating **TMDB & OpenAI** APIs.
- **Designed** and implemented an interactive quiz with OpenAI.
- Built **secure** authentication using **OAuth** library and middleware.
- **Optimized** API usage, reducing costs by 20%.
- Set up and managed a **MongoDB database**, ensuring efficient data storage and fast retrieval.

Senior Industrial Engineer Vericom

2019 - 2024, Kyiv, Ukraine

- Oversaw customer consultations and managed the entire production process.
- Managed full production cycle of CNC machine tools.
- Designed and optimized processes for manufacturing efficiency.

SKILLS

Frontend:

- React/React Native
- Next.js, Vite
- Tailwind CSS, SASS, Material UI
- Responsive design & Accessible Web Design

Backend:

- Node.js
- Festify, Express
- Strapi
- PostgreSQL, MySQL, MongoDB
- Openai API

Tools & Other:

- Git, GitHub, CI/CD
- AI Agent
- Performance Optimization
- Code Refactoring

EDUCATION

GO IT

Full Stack Development

2022 - 2023

Certificate

NATIONAL AVIATION UNIVERSITY

Master's Degree in Energy Engineering

LANGUAGES

Ukrainian - native

Russian - native

English - B2
