Full Stack Developer

Serhii Kushnir

Poland | +48 535 199 746 (Telegram @SerhiyKushnir) | s1983kushnir@gmail.com | LinkedIn Portfolio GitHub

Full Stack Developer skilled in **React, Next.js**, and **TypeScript**. Expert at building **scalable, high-performance applications** with a focus on **UI/UX** excellence and **backend efficiency**. Dedicated to writing maintainable code and collaborating across teams to deliver production-ready features that drive user engagement.

EXPERIENCE

Full Stack Developer TheBuidl

February 2025 - Present

React, Next.js, Strapi, TS, Tailwind CSS, Zustand

- **Built and delivered** full-stack applications from scratch, defining scalable **architecture** and ensuring production readiness.
- **Collaborated on team projects** by adding features and refactoring code, improving maintainability and **reducing technical debt**.
- **Optimized frontend performance** by restructuring asset delivery and reducing unnecessary network requests, decreasing load times by **~20%.**
- **Improved application reliability** and performance through structured error handling and optimizations, achieving **Lighthouse scores of 90+**, resulting in fewer runtime issues and faster load times.
- **Applied caching strategies** and incremental static regeneration (ISR), reducing server load and improving response times by **~15–25%**.

Front End Developer Junfolio

September 2024 - February 2025

React, Next.js, TS, Tailwind CSS, Redux, React Hook Form, Yup

- Developed a platform connecting startups with collaborators.
- **Refactored and optimized** code, improving performance.
- Built reusable, user-friendly forms with **React Hook Form** and **Yup**.
- **Mentored** developers and conducted technical interviews.

Full Stack Developer Reel-Reveal

January 2024 - September 2024

Next.js, React, TS, Tailwind CSS, OpenAI API, MongoDB, TMDB API, NextAuth

- Built a movie discovery app integrating **TMDB & OpenAI** APIs.
- **Designed** and implemented an interactive quiz with OpenAI.
- Built **secure** authentication using **OAuth** library and middleware.
- **Optimized** API usage, reducing costs by 20%.
- Set up and managed a **MongoDB database**, ensuring efficient data storage and fast retrieval.

SKILLS

Frontend:

- React/React Native
- Next.js, Vite
- Tailwind CSS, SASS, Material UI
- Responsive design & Accessible Web Design

Backend:

- Node.js
- Fastify, Express
- Strapi
- SQL, NoSQL, Supabase
- AI Integration

Tools & Other:

- Git, GitHub, CI/CD
- AI Agent
- Lighthouse
- Code Refactoring
- Docker

EDUCATION

GO IT

Full Stack Development

2022 - 2023

Certificate

NATIONAL AVIATION UNIVERSITY

Master's Degree in Energy Engineering

LANGUAGES

Ukrainian - native

Russian - native

English - B2
